

# WI-FI 6 CHROMEBOOKS TRADE-IN PROGRAM.

Unlock Everything Wi-Fi 6 Networks Have to Offer With Wi-Fi 6 Chromebooks

When your devices are designed for your network, your stakeholders are equipped with the tools they need to be more productive, communicate effectively and collaborate like never before.

Wi-Fi 6 Chromebooks + Wi-Fi 6 Networks Working Together = Scalability, Security, Reliability, Performance

4X GREATER SCALABILITY	IMPROVED SECURITY	NOTABLE RELIABILITY	3X FASTER PERFORMANCE
Efficient connectivity across more devices with plenty of headroom for future growth and fewer APs required to support your existing fleet.	WPA3 security features, and next-generation authentication and military-grade encryption to keep your data and information even safer from cyber threats.	All-school-day battery without charging, and tunes out the noise of other networks to reduce lag time by 75% for video conferencing and esports applications.	Next-level GB speeds through 1024 QAM and support for optional 160 MHz that delivers up to 43% faster web browsing and loads large files up to 36% faster.
